# Improving WATSS web application with Computer Vision techniques

*Visual and Multimedia Recognition*

Lorenzo Cioni

ANNO ACCADEMICO 2015/2016

# Introduction

---

WATSS, **Web Annotation Tool for Surveillance Scenarios**, is a web-based annotation tool developed to annotate dataset in surveillance systems.

**Main goal:** improve WATSS with some **Computer Vision approaches**, in order to make easy for users to use this tool and make the annotation process more *automatic*
